

We have added two new tubeless valves, **VS01-B** and **VS02-B**. These valves replace most of the previous part numbers. The chart below should help to answer any questions regarding availability and application.

| PICTURE  | PART NUMBER     | DESCRIPTION  | AVAILABILITY                           | NOTES   |
|--|-----------------|--|--|---|
|    | <b>VS01 – B</b> | 35mm Universal Mountain Valve                                      | Current Stock                          | Compatible with UST, TCS, TLR and ZTR mountain rims.  |
|    | VS01            | Pair of 35mm Universal Mountain Valves. Packaged for retail sales. | Current Stock                          | Sold in pairs. Nickel plated. Extended rubber base aids inflation. Compatible with ZTR, road tubeless and standard road rims converted to tubeless.   |
|    | <b>VS02 – B</b> | 44mm Universal Road Valve  | Current Stock                          | Compatible with ZTR, road tubeless and standard road rims converted to tubeless.  |
|    | VS02            | Pair of 44mm Universal Valves. Packaged for retail sales.          | Current Stock                          | Sold in pairs. Nickel plated. Extended rubber base aids inflation. Compatible with ZTR, road tubeless and standard road rims converted to tubeless.   |
|    | AS06            | UST Valve Stem   | Discontinued, replaced by VS01.        | Compatible with UST, TCS, TLR and ZTR mountain Rims. Base rubber extends higher on valve than AS13.   |
|  | AS07            | Standard Valve Stem  | Limited, can be produced upon request. | Only to be used on ZTR Rims when the inner valve hole has been enlarged to accommodate a rubber rim strip for tubeless use. Not to be used in a tape only or “ghetto” tubeless conversion in lieu of a rubber rim strip. Round, flat rubber base approx. 5/8” diameter. |
|  | AS13            | Olympic Valve Stem   | Discontinued, replaced by VS01.        | Compatible with ZTR mountain rims. Rubber base does not extend as far up valve as AS06.   |
|  | AS37            | 44mm Road Valve Stem   | Discontinued, replaced by VS02.        | Used when performing a tubeless conversion of a standard road rim. Wide rectangular base.   |
|  | AS39            | Alpha 44mm Valve Stem  | Discontinued, replaced by VS02.        | Compatible with ZTR Alpha road rims   |

\*All valve stems feature a removable valve core
